

# Danske Daily

## Danish spending has dropped significantly amid lockdown

### Market movers today

- **COVID-19 will continue to be in focus.** Yesterday we published *Research COVID-19: Closer to the peak in bad news*, where we look at what to expect. You can also follow our daily updates on the virus [here](#).
- **We do not expect any changes from the Bank of England today.** It recently cut rates down to 0.1%, started a GBP200bn QE programme and yesterday a Contingent Term Repo Facility was announced to ease signs of stress in the UK money market. If anything, we think the Bank of England may increase its QE programme further at some point, as it remains small compared to peers.
- **Today we get a bunch of sentiment indicators in Europe.** France and Sweden release business confidence for March, which is likely to show a steep decline due to the spread of COVID-19. Swedish consumer confidence will also be interesting to see how households are affected by the crisis.
- **In the US the weekly initial jobless claims will give more insight to how much unemployment is set to rise.** Consensus looks for a record increase from 281k to 1500k (1.5 million!) but we will not be surprised to see an even higher number given some of the regional news stories.
- The US also releases data on core PCE inflation.

### Selected market news

**While we may have seen early signs of improvement in Italy, things are looking worse in Spain.** Yesterday, fatalities in Spain rose by 738 to a total of 3,434. In the US, fatalities have risen above 1,000. On a global scale, the number of cases is now above 451,000 and there are more than 20,000 deaths. **Yesterday we published *Research COVID-19: Closer to the peak in bad news*, where we look at what to expect.**

**The US Senate approved the USD2,000bn spending package.** The deal includes USD500bn in direct payments to Americans, USD500bn for large companies including more money into the Exchange Stabilization Fund, which can be used as guarantees in the Fed's various credit facilities, USD350bn for loans to small businesses, USD350bn worth of tax cuts mainly by cutting payroll taxes, higher unemployment benefits and USD150bn funding for hospitals. The House is set to vote on the deal tomorrow and it is expected to pass without too many problems although it may hit some obstacles.

**Yesterday, we published our weekly Danish spending monitor tracking total spending on a daily basis during the COVID-19 crisis.** Data up to and including 23 March shows that the significant shifts in consumption since early March, notably since the announcement of extensive lockdown measures on 11 March, have continued. For more see *Spending Monitor: Significant shifts in Danish spending continue, as overall consumption drops*, 25 March.

### Selected reading from Danske Bank

## Scandi markets

Look out for **Swedish** confidence indicators due out this morning.

Yesterday, we published our weekly Danish spending monitor tracking total spending on a daily basis during the COVID-19 crisis. For more see *Spending Monitor: Significant shifts in Danish spending continue, as overall consumption drops*, 25 March.

## Fixed income markets

The stabilisation in the global markets continue with equity prices rising and credit spreads slowly tightening. **In the European government bond markets**, core-EU yields rise, while the periphery performs. The long end of the core-EU curves (10Y-30Y) continues to steepen. Today, Italy will sell linkers and zero-coupon bonds in a fairly small auction. It plans to sell EUR2.75bn in the zero-coupon bond. The discussion regarding joint Eurobonds to finance the increased fiscal spending continued as ECB's Lagarde also urged EU governments to consider Eurobonds.

**In Scandinavia**, the Swedish central bank conducted its first buy-back of Swedish covered bonds as it bought SEK10bn in the 4Y-5Y segment from seven different covered bond issuers in a reverse auction. There were 'bids' for a total of SEK20.5bn. The reaction in the market was fairly muted but the spread to government bonds tightened. However, the introduction of covered bonds into the QE programme has stabilised Swedish mortgage bond spreads versus swaps and government bonds. The Swedish Debt Office launched the new 10Y benchmark yesterday, where it sold SEK2bn with a bid to cover of 3. There will be an exchange auction today with the old 10Y benchmark SGB 0.75% 2029 for SEK4bn.

It is similar picture in Denmark where both callable and non-callable mortgage bonds perform relative to swaps and Danish government bonds. On Friday the mortgage banks will hold auctions in non-callable as well as callable mortgage bonds. Realkredit Danmark has announced between DKK4-5bn in both callables and non-callables. We expect to see solid demand at the auction as the spreads are still wide even after the latest spread tightening.

## FX markets

In the Scandies, the recent **NOK** rally continued amid higher foreign asset prices and improved liquidity conditions. While uncertainty remains high we believe more NOK strength is in store. For more information on why that is the case see *Reading the Markets Norway*, 25 March.

**EUR/DKK** seems to have settled around the 7.4660-80 level after the recent tightening of monetary policy and stabilisation of global equity markets. Higher policy rates and tighter liquidity conditions have pushed EUR/DKK FX forward points out to 1M above zero and 3M closer to zero. Hence, should equity markets continue to rebound there is grounds for a move lower in EUR/DKK. In the short term, Novo Nordisk will pay dividends (ex date tomorrow), which normally tends to push EUR/DKK temporarily higher. Danmarks Nationalbank will offer USD10bn on 1W and USD10bn on 3M via FX swap facility with the Fed today.

## Key figures and events

Thursday, March 26, 2020			Period	Danske Bank	Consensus	Previous
-	USD	Fed's George (non-voter, hawkish) speaks

## Disclosures

This research report has been prepared by Danske Bank A/S ('Danske Bank'). The author of the research report is detailed on the front page.

### Analyst certification

Each research analyst responsible for the content of this research report certifies that the views expressed in the research report accurately reflect the research analyst's personal view about the financial instruments and issuers covered by the research report. Each responsible research analyst further certifies that no part of the compensation of the research analyst was, is or will be, directly or indirectly, related to the specific recommendations expressed in the research report.

### Regulation

Danske Bank is authorised and subject to regulation by the Danish Financial Supervisory Authority and is subject to the rules and regulation of the relevant regulators in all other jurisdictions where it conducts business. Danske Bank is subject to limited regulation by the Financial Conduct Authority and the Prudential Regulation Authority (UK). Details on the extent of the regulation by the Financial Conduct Authority and the Prudential Regulation Authority are available from Danske Bank on request.

Danske Bank's research reports are prepared in accordance with the recommendations of the Danish Securities Dealers Association.

### Conflicts of interest

Danske Bank has established procedures to prevent conflicts of interest and to ensure the provision of high-quality research based on research objectivity and independence. These procedures are documented in Danske Bank's research policies. Employees within Danske Bank's Research Departments have been instructed that any request that might impair the objectivity and independence of research shall be referred to Research Management and the Compliance Department. Danske Bank's Research Departments are organised independently from and do not report to other business areas within Danske Bank.

Research analysts are remunerated in part based on the overall profitability of Danske Bank, which includes investment banking revenues, but do not receive bonuses or other remuneration linked to specific corporate finance or debt capital transactions.

### Financial models and/or methodology used in this research report

Calculations and presentations in this research report are based on standard econometric tools and methodology as well as publicly available statistics for each individual security, issuer and/or country. Documentation can be obtained from the authors on request.

### Risk warning

Major risks connected with recommendations or opinions in this research report, including as sensitivity analysis of relevant assumptions, are stated throughout the text.

### Expected updates

Each working day.

### Date of first publication

See the front page of this research report for the date of first publication.

## General disclaimer

This research has been prepared by Danske Bank A/S. It is provided for informational purposes only and should not be considered investment, legal or tax advice. It does not constitute or form part of, and shall under no circumstances be considered as, an offer to sell or a solicitation of an offer to purchase or sell any relevant financial instruments (i.e. financial instruments mentioned herein or other financial instruments of any issuer mentioned herein and/or options, warrants, rights or other interests with respect to any such financial instruments) [( 'Relevant Financial Instruments' ).]

This research report has been prepared independently and solely on the basis of publicly available information that Danske Bank A/S considers to be reliable but Danske Bank A/S has not independently verified the contents hereof. While reasonable care has been taken to ensure that its contents are not untrue or misleading, no representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or reasonableness of the information, opinions and projections contained in this research report and Danske Bank A/S, its affiliates and subsidiaries accept no liability whatsoever for any direct or consequential loss, including without limitation any loss of profits, arising from reliance on this research report.

The opinions expressed herein are the opinions of the research analysts and reflect their opinion as of the date hereof. These opinions are subject to change and Danske Bank A/S does not undertake to notify any recipient of this research report of any such change nor of any other changes related to the information provided in this research report.

This research report is not intended for, and may not be redistributed to, retail customers in the United Kingdom (see separate disclaimer below) and retail customers in the European Economic Area as defined by Directive 2014/65/EU.

This research report is protected by copyright and is intended solely for the designated addressee. It may not be reproduced or distributed, in whole or in part, by any recipient for any purpose without Danske Bank A/S's prior written consent.

## Disclaimer related to distribution in the United States

This research report was created by Danske Bank A/S and is distributed in the United States by Danske Markets Inc., a U.S. registered broker-dealer and subsidiary of Danske Bank A/S, pursuant to SEC Rule 15a-6 and related interpretations issued by the U.S. Securities and Exchange Commission. The research report is intended for distribution in the United States solely to 'U.S. institutional investors' as defined in SEC Rule 15a-6. Danske Markets Inc. accepts responsibility for this research report in connection with distribution in the United States solely to 'U.S. institutional investors'.

Danske Bank A/S is not subject to U.S. rules with regard to the preparation of research reports and the independence of research analysts. In addition, the research analysts of Danske Bank A/S who have prepared this research report are not registered or qualified as research analysts with the New York Stock Exchange or Financial Industry Regulatory Authority but satisfy the applicable requirements of a non-U.S. jurisdiction.

Any U.S. investor recipient of this research report who wishes to purchase or sell any Relevant Financial Instrument may do so only by contacting Danske Markets Inc. directly and should be aware that investing in non-U.S. financial instruments may entail certain risks. Financial instruments of non-U.S. issuers may not be registered with the U.S. Securities and Exchange Commission and may not be subject to the reporting and auditing standards of the U.S. Securities and Exchange Commission.

## Disclaimer related to distribution in the United Kingdom

In the United Kingdom, this document is for distribution only to (I) persons who have professional experience in matters relating to investments falling within article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the 'Order'); (II) high net worth entities falling within article 49(2)(a) to (d) of the Order; or (III) persons who are an elective professional client or a per se professional client under Chapter 3 of the FCA Conduct of Business Sourcebook (all such persons together being referred to as 'Relevant Persons'). In the United Kingdom, this document is directed only at Relevant Persons, and other persons should not act or rely on this document or any of its contents.

## Disclaimer related to distribution in the European Economic Area

This document is being distributed to and is directed only at persons in member states of the European Economic Area ('EEA') who are 'Qualified Investors' within the meaning of Article 2(e) of the Prospectus Regulation (Regulation (EU) 2017/1129) ('Qualified Investors'). Any person in the EEA who receives this document will be deemed to have represented and agreed that it is a Qualified Investor. Any such recipient will also be deemed to have represented and agreed that it has not received this document on behalf of persons in the EEA other than Qualified Investors or persons in the UK and member states (where equivalent legislation exists) for whom the investor has authority to make decisions on a wholly discretionary basis. Danske Bank A/S will rely on the truth and accuracy of the foregoing representations and agreements. Any person in the EEA who is not a Qualified Investor should not act or rely on this document or any of its contents.
